Saitama University The 2nd HiSEP Special Seminar

The Light Fantastic: Understanding Light and Its Applications

Dr. Lewis M. Antill
Special Project Researcher
(Saitama Univ.)
PRESTO Researcher (JST)

Date & Time

6/17 (Fri) 13:00-14:30

Room 1, Faculty of Science

ABSTRACT

Imagine you are walking through the park in spring, viewing the cherry blossoms.

We know that light reflects off the flowers to your eyes and informs you that they are pink, but what is light, exactly? This lecture will discuss the answers to this question and their impact on society.

Organized by HiSEP.

Faculty of Science, SAITAMA University
